Math 2-3!

“Teachers, You are the Essential Piece”

A Math workshop for 2nd and 3rd grade teachers only!

This workshop is designed for elementary teachers to help **increase their content knowledge** in mathematics. Strategies presented will assist teachers to gain a strong understanding of the **level of instruction** that is expected from *all elementary teachers* in order to **increase student achievement**. Teachers will learn various techniques on how to teach Georgia Performance Standards and the new Common Core Standards. All **hands-on activities** will address standards from number sense and operations, geometry, measurement, and **elementary algebra**.

Creative ways of assessments will be demonstrated to incorporate a win-win environment for both the **student and the teacher**.

PROGRAM HIGHLIGHTS

- 👉 “Meet Mr. Million and Mr. Billion” – Reading Numbers
- 👉 “Subtraction Superstars”- Subtracting with Regrouping
- 👉 “Running Circles Around Math” – Exploring the Circle
- 👉 “Picture Perfect Papers” – Understanding the Division Process
- 👉 “The Place Value Chant” – Understanding Rounding Numbers

Experienced Presenter

Valencia F. Thornton, a math specialist and consultant has been leading students to success in math for 20 years! She was nominated for Who's Who Among American Middle School Teachers. She has taught underachievers and has discovered ways to **stimulate** and **motivate** them into loving math!

Excellent Presenter!

"Good presentation! Gives elementary teachers good insight to help prepare for the middle school!" L. Glover, 2nd grade teacher

"Excellent, energized presentations, appropriate ideas and models to use with the struggling student." M. Galeaidi, 3rd grade teacher

*Thank you so much for your very timely and excellent presentation on **teaching strategies** for math standards. We received a large number of compliments for having you as one of our presenters. Mike Mize, Georgia Department of Education*

"Dear Ms. Thornton, I love you as a teacher and like your idea. Thank you for teaching division by doing multiplication. Thank you and have a great day."

3rd grade student, Fulton County Schools

You will leave knowing how to:

- Motivate and sustain your students' interest.
- Identify Fool-proof strategies to help your students obtain GOOD grades.
- Deliver math skills using the clustering methods.
- Engage every learner so that they will leave and return to your class **Motivated and Excited!**
- **Strengthen** your Struggling Students' performance in **Math!**
- Use creative ways to assess students' progress with constant monitoring using the power of "why", "show me how you..." and "talk that out aloud for me!"
- Use "questioning" techniques to help students relate concepts within the content area.

Confirmations will be sent via e-mail!

Please provide current e-mail address.
